

FTD DISORDERS
REGISTRY®

We've roped together some numbers from 2021 that reflect ways the FTD Disorders Registry supported research studies to encourage recruitment.

FTD DISORDERS
REGISTRY®

All support began with a website listing on the Registry's Find A Study page. For passive support, the Registry created articles, social posts, and more.

Active support included all passive options plus sending emails that were targeted to individuals potentially eligible for a specific study. Engagement metrics were recorded.

2021 FTD Registry Research Support

10 Study campaigns

6,597 Targeted emails

32 Social posts
